Challenges and Opportunities for the Health of New Zealanders

Tuesday 25 September, 7-8.30pm

AMRF Lecture Theatre

85 Park Rd, Grafton Campus

The University of Auckland

During this year's lecture series, we have highlighted areas of major progress in health. However, many other problems and opportunities remain, and this final lecture in the series will consider some of these: mental health, diabetes, pharmacy and rheumatic fever.

'BITS BOTS and Beyond: The promise and challenge of technology in improving mental health'

Professor Sally Merry

'Diabetes and obesity – when one size does not fit all'

Assoc Prof Rinki Murphy

'People not potions: the re-professionalisation of pharmacy'

Assoc Prof Jeff Harrison

'New initiatives in rheumatic fever'

Professor John Fraser
